PERSONAL STATEMENT

I am a technically savvy web developer, who has multiple years of website design expertise behind me. I can be a strong driving force for improving the performance, scalability and reliability of development projects. I have long track record of creating dynamic, rich and interesting web portals and of providing long term solution to front-end problems. I have experience of working in leading global internet technology companies and of completing challenging client projects. Though I am a self directed and self managed person, I am always pushing myself to deliver ongoing process improvements in anything I do. Right now I am looking for suitable position and to join an enthusiastic team who enjoy what they do.
